1 or 2 Day

The skills of effective facilitation are now essential knowledge for all business professionals. Learn the secrets to engaging people and eliciting their contribution in a focussed way

The negative impact of many dull and lifeless conversations in business has led to a demand to engage audiences effectively. This programme gives participants a complete tool kit to create innovative and engaging ways to discuss information. They will learn the critical communication skills of a facilitator and how to handle the pressure of leading conversations.

We discuss the art of audience-led facilitation, how to shift communication from 'tell' to 'ask'. Practice using a facilitation style to allow you to approach ANY subject with confidence regardless of your expertise in that area. By utilising the expertise of the people in the room, you do not need to be an expert and can stay focused on guiding the dialogue, keeping it on track. You will find this new level of flexibility can be transferred into all professional circumstances enabling you to effectively question and lead conversations in a strong assertive manner. The outcome is focused productive interactions where the participants are contributing and motivated.
